

Creative Art

Description

Year 9 Creative Art encourages students to explore a variety of cultural and personal style of art.

Unit Topics

In the practical components of this unit students will:

- be introduced to and experiment with a variety of mediums and formats*
- develop skills in basic drawing and design*
- gain an understanding of how to express their own ideas*
- work through the art making process*

Skill Development

Students will develop practical skills in the creation of artworks in a variety of mediums and formats. Students will also develop research skills while gaining an understanding of art history and art theory.

Possible Assessment Tasks

In the theoretical component of this unit students will:

- develop a folio with both written documentation and working drawings to show the development of their ideas and trialling of different techniques*
- Complete a research assignment on an art movement*
