

Sculpture

Description

Students explore designing and creating 3 dimensional forms from a range of sculptural material, including clay. They consolidate and build upon skills and knowledge acquired in earlier years. Students will be encouraged to develop a personal style of creative expression through following a design process in a visual diary through exploring ideas and subject matter. This will result in an individual or collaborative sculpture pieces in a range of various media. Students will prepare for the presentation of their final artworks for an exhibition. This will be supported by the study of artist's practices and artworks from various times and cultures.

This elective can provide a pathway to further Art studies in VCE Studio Arts.

Unit Topics

- *Explore and Express*
- *Visual Art Practices*
- *Present and perform*
- *Respond and interpret*

Skill Development

Students learn through exploring a range of three-dimensional arts forms to develop skills in assemblage, modelling, construction and carving. Students also learn about the history of art and analysing artworks and their meaning.

Possible Assessment Tasks

The following learning activities will be used to indicate performance:

- *A folio documenting the exploration of three dimensional mediums and the production of finished art works*
- *A sketchbook documenting the development of ideas*
- *Analysis of a selected artwork.*
