

games group

For like-minded young people that enjoy connecting through gaming.

The games group will be split into two groups by age: 12-16 and 16+.

If you want to make some friends, need some wins in life, or just love gaming, this group is for you! **No experience needed.**

We will be playing multiplayer, electronic games (generally cooperative, always age-appropriate) and may also play Dungeons and Dragons and other roleplaying/tabletop games.

This group is predominantly a social group and we will provide some information about safe online gaming and internet use, good gaming hygiene and making friends.
