

# Art

## Description

*Year 9 Art encourages students to explore a variety of cultural and personal style of art.*

## Unit Topics

*In the practical components of this unit students will:*

- be introduced to and experiment with a variety of mediums and formats
- develop skills in basic drawing and design
- gain an understanding of how to express their own ideas
- work through the art making process

## Skill Development

*Students will develop practical skills in the creation of artworks in a variety of mediums and formats. Students will also develop research skills while gaining an understanding of art history and art theory.*

## Possible Assessment Tasks

*In the theoretical component of this unit students will:*

- develop a folio with both written documentation and working drawings to show the development of their ideas and trialling of different techniques
- Complete a research assignment on an art movement
